Muhlenberg County

is rich in coal, iron, timber, potter's clay, etc., and the most inviting field in Kentucky for investment of capital and pluck.

VOL. XV. NO. 2.

GREENVILLE, KY., THURSDAY, FEBRUARY 13, 1913.

50c. PER YEAR, IN ADVANCE

BUYING BREEDING POULTRY.

Good Blood in Poultry Yard Is Not a Mere Whim, But a Money-Maker

Breeding stock should be accustomed to their quarters before the breeding season opens. Those of our readers who have made up their minds to dispose of their old cocks should get them out of the way and replace them with new ones without much delay. The old ones will never taste much better than right now. A touch of old bird can be made very palatable if put into a stew and cooked slowly long enough. If the old ones are not out of the way before the new ones arrive, the old ones will look upon the new ones as intruders, and fights will result that can serve no good end. If the new arrivals find no opponents they will accommodate themselves to conditions very quickly, and the flock will be ready to get results by the time eggs are wanted for hatching.

There can be no doubt about it, no doubt that those who are reading progressive farm papers will want to improve their flocks. If they do not this year, they will next or the year after. This thing of having good blood is no mere idle whim. It is a money-making proposition. The sooner good blood is got into the flock, the sooner will more pride be taken in the business and more profits taken out of the business.

It requires so much money to stock up on both males and females for the larger classes of live stock that most farmers feel they can not afford it; but this is not the case with poultry. A good male and a small number of females can be got at a small outlay. If there are no other males on the place the new male can be used with the whole flock. This will give a few standard bred birds and many others that are not standard bred. If one desires to have some that are pure standard bred blood and to know which are pure blooded and which are not, it will be necessary to have a pen for the pure bloods. Usually pens for poultry on the farm should not be tolerated, but an exception might properly be made in a case of this kind.

Where possible, the poultry raiser should begin at the top every time—that is, start with standard bred fowls in every case by using standard bred breeders of both sexes. If this can not be afforded—usually it can—the standard bred males and make a practice of doing so each succeeding year. The change that will be wrought in the flock in twelve months will be enough to make anyone proud. The second year the offspring will look so much like their standard bred ancestors that it will begin to be hard to tell the birds of mixed breeding from those that are standard bred. When a flock reaches this degree of excellence, it begins to be a very practical fowl for the farmer whose chief aim is to get a reasonable number of eggs and nice carcasses for selling and to have every lot of eggs and birds marketed grade evenly and consequently make that pleasant impression on the eye that makes good sales.

It so happens that after a poultryman starts with one breed of fowls he concludes he ought to get new blood by crossing with some other breed. Such violent crosses are unfortunate, since a common result is that the offspring do not develop the good qualities of their immediate ancestors so much as they do their bad qualities. The offspring looks too much like mongrels. Always get new blood by using birds of the same breed.

The experience of practical breeders have so repeatedly shown that these principles are correct that there is no use in listening to the free advice given by some one who is unable to tell whether a fowl is standard bred or not. Wide experience and many observations are necessary to formulate rules for breeding, and it is safer to follow the advice of those who have attained great success than it is to follow the advice of some one who has really never accomplished much.

With the crops practically housed and only the remnants to be gathered, there is now nothing to do but to fix up things generally and commence operations for next year's crop. One good way to begin is to sow rye, wherever possible, for grazing in the spring and for soil improvement. We want to plan to make larger yields per acre next year than we made this year, or last year either. The surest way to do this is to do better farming. Rye will hold much fertility that would be leached out of the soil by the winter rains and lost to us if there were no living plants to take it up. And when plowed under next spring, rye will give to the land, in addition to the stored fertility, humus which most of our lands stand so much in need of. It is late, of course, to sow rye, but this is one of the things about which it can be truthfully said: "Better late than never."

A dry floor well covered with litter keeps the hens contented when blizzards are raging outside, and it fills the egg basket when eggs are worth anywhere from 20 to 50 cents per dozen.

Change the feed lots often. It improves the land greatly and improves the hog more.—A. M. Worden.

It is claimed that fine pork can be made on alfalfa for one cent a pound.—A. M. Worden.

FEW LESSONS WITH TURKEYS

Breeder of Twenty-Two Years' Experience Finds Business More Profitable Each Year.

I have raised turkeys for sale 22 years, and find it a more profitable business each year, says a writer in the Farm and Fireside.

I have had to learn many lessons by quite an expensive route. One year I failed entirely by too close breeding. Another year I let my turkeys wander at their own will and showed where they pleased. Again I showed some to go up in the trees—a hard storm blew them out and I lost 21 beauties. Since these lessons I have worked differently.

I change either breeding hens or some every other year. I usually buy a thoroughbred bronze from some unrelated flock. I keep old hens for breeders, and find their poulters more healthy. One early turkey is more profitable than three late ones, so I use the first eggs and sell the later ones. Chicken hens are set on the first laying and the poultry given to the first turkey hen that becomes broody. Large, airy pens or coops with rainproof roofs are built quite a distance from the house.

The hens are kept up two weeks, and then turned out every morning, unless the weather becomes rainy. They have learned to come when called, and will answer me from ever so far when I call "Pee turk! Come on!" I am never too busy or too tired to get them up at the approach of a hard storm, and at four o'clock in the evening. They soon learn to come home. After they are five or six weeks old I never feed at noon.

I feed no sloppy feed, but have good luck with wheat or corn bread, cracked corn, cooked soft, wheat, mashed potatoes, etc.

The first two weeks are the most particular. I give each poult a grain of black pepper when it is 24 hours old, and a stroke of lard or vaseline from bill to top of head.

Then a feed of hard-boiled egg, shell and all, crushed fine, mixed with bread soaked soft and squeezed dry. Fresh water, sand, lime and ground charcoal are kept handy. They eat of all; I never feed too much. I never feed over four times a day, and that often only a week. More turkeys die from overfeeding than underfeeding. I use a flat board to sprinkle their feed on, and keep it clean. It pays to be cleanly with turkeys.

LEGHORN HENS AS MOTHERS

Although Called Nonitters Occasionally One Is Found and Will Cover Many Eggs.

Although the Leghorns are called nonitters, they do sit occasionally, and I like them very much as mothers. It would hardly seem possible that a Leghorn hen would cover more

eggs than a Cochins, but it is a fact, says a writer in the Farm and Fireside. The Cochins' wings are short and stubby, while the Leghorn's wings are long and she will spread them over a big nestful. Last summer a Leghorn incubated 20 eggs for me and hatched 19 of them. It was, however, in the month of July, and her nest was carefully arranged in a basket; but I never give them less than 15. They take excellent care of their young; being light weight, they seldom hurt a chicks by stepping on it, and they will fight intruders fiercely.

With the crops practically housed and only the remnants to be gathered, there is now nothing to do but to fix up things generally and commence operations for next year's crop. One good way to begin is to sow rye, wherever possible, for grazing in the spring and for soil improvement. We want to plan to make larger yields per acre next year than we made this year, or last year either. The surest way to do this is to do better farming. Rye will hold much fertility that would be leached out of the soil by the winter rains and lost to us if there were no living plants to take it up. And when plowed under next spring, rye will give to the land, in addition to the stored fertility, humus which most of our lands stand so much in need of. It is late, of course, to sow rye, but this is one of the things about which it can be truthfully said: "Better late than never."

CUTTING BACK FRUIT TREES

Only Three to Five of Best Limbs Should Be Treated, Says a Colorado Press Bulletin.

A great many factors enter into the determination of just how a tree should be cut back. In this article, says a Colorado bulletin, only a general rule can be given. Only three to five of the best limbs should be cut

back to 8 or 12 inches, making the cut just in the direction in which the limb should grow.

All trees should be kept low headed. Be careful not to cut off the lower limbs when it is not necessary, as they are usually the very ones to be left. Lowest limbs should be from 18 to 24 inches from the ground. If the tree has been pruned so that the top is much higher than this, it is usually best to cut the entire top off about three feet from the ground and depend upon forming the top from limbs which come out below this point.

Peach trees can stand more severe pruning than either cherry or apple. Peach trees should generally be cut off about 18 inches from the ground, and if there are any branches below that point they should be cut back to the first or second bud. Cherries or plums need practically no pruning except to cut the branches off a foot or so from the trunk.

Current and grape cuttings, planted in beds in early spring, are mulched in late summer, preferably with sawdust or tan bark, and kept moist until the cuttings are rooted. Later on the propagating bed is given frequent and shallow cultivation. Hoeing is frequently done between the rows of plants, which are 18 inches apart. This keeps fresh soil around them, keeps down the weeds and water is given when the soil is very dry.

A propagating bed for strawberry plants also needs some attention. The weeds must be kept out. It is best to cut off the late runners, as the early ones make the strongest plants. If several varieties are in the bed set up boards between each to prevent them running together, and be sure to label each division with the name of the variety.

USEFUL AS INSECT CATCHER

Unique Arrangement Patented by Oregon Man Composed Mostly of Articles Around Home.

The illustration shows a unique arrangement for catching and destroying insects, patented by a resident of Canby, Ore. It is composed of articles ordinarily found around a house, and includes a barrel, dishpan, lantern, and

three sticks for a tripod. The upper section of the barrel is cut out and the lower part contains fruit or other odoriferous materials. The pan contains liquid.

Keep your stock healthy, clean and comfortable. Not all the failures of poultry life are due to the hens. The first duck eggs of the season are hardly ever fertile. Don't gorge the growing chicks one day and starve them the next. Any fowl is liable at times to produce an egg containing blood spots. Well grown ducklings very often will begin laying at five months of age. Chicks like heat, and it is good for them; but there is a difference in heat. Don't let chicks squeeze through slatted coops until their bodies are deformed. Poultry breeding as a pursuit is practically a labor of love, but it is, nevertheless, a labor.

WITH THE MOVIES.

Freedom, represented by a beautiful girl attired in classic draperies, shrieked when Kosciuszki fell.

"Don't strain your lungs," said the man who was operating the picture machine. "If you simply move your lips we'll get all the effect we need."

The boy stood on the burning deck "Don't stand like a wooden Indian," yelled the man at the machine. "I don't know where the management finds all these bum hams."

A soldier of the legion lay dying at Algiers.

"One minute to change the reel," hawled the operator. "Keep your pose that won't give you time to smoke no cigarette."

Just as Easy!

The child of the professional humorist was gazing at a lump of ice, from which vapor was rising.

"See, father!" cried the child. "Even the ice is hot."

"Well, run out into the pantry and you can see the ice-cooler," replied the professional humorist, carefully making a note on his cuff.—Lippin cotts.

POP PLAYED POKER.

Teacher (to geography class)—Willie, you may tell us what a strait is. Willie—Five consecutive cards of any suit.

Go To It. Quit your grumbling and boo-hooing! Face the fight with courage stout! It's the man who's up and doing Who is never down and out.

Earning His Fee. Breathlessly he rushed to the lawyer's office. "My next-door neighbor is learning to play the cornet," he exclaimed. "The man is a public nuisance. What would you advise me to do?"

"Learn to play the trombone," replied the astute lawyer. "Ten dollars, please."

The Trouble. "Why were you absent from school yesterday, Grace?" asked the teacher. "Please, teacher, my nerver was sick."

The teacher, who is afraid of contagion, asked: "What is the matter with her? What does the doctor say it is?"

"Please, teacher, he says it's a boy,"—Harper's Magazine.

A Trade Grievance. "Our advertising club has condemned the Wisconsin professor who says nose rubbing should take the place of kissing."

"And why, pray?"

"For encouraging a 'just as good' substitute,"—Judge.

Cause for Regret. Lady—I don't like this picture so well as I did the last one you took of me.

Photographer—Ah, madam, I have not the artistic taste that I had when I was younger and, besides, my camera is getting old.

QUITE ENOUGH.

De Whiz—I don't see how Dough-bag managed to get along in Paris.

De Quiz—Why not?

De Whiz—Why, he couldn't speak the French language.

De Quiz—No, but his money could.

There Was a Man. There was a man in our town Who used to go on toots, Until he saw pink elephants Emerging from his boots.

A Question. The Critic—That picture entitled "Charity" is pretty fair for Church-mouse to have painted.

The Querist—Yes; wonder where he got the model of the \$2 bill the woman is handing over?

THE RECORD.

An Independent Newspaper.

PUBLISHED WEEKLY BY

RECORD PRESS,

GREEN RICE, President. OREN L. ROARK, Secretary.

OREN L. ROARK, EDITOR.

Long-Distance Telephone, No. 72.

Office in new building rear of store, ground floor.

50 CENTS PER YEAR, IN ADVANCE.

TERMS.

The subscription price of the paper is payable in advance, and when the time has expired to which it is paid, the paper will be stopped.

Cards of thanks, obituary notices, etc., if not longer than ten lines, will be published free. A charge of six cents per line will be made for succeeding lines. No variation of this rule to anyone.

Free sample copies will be mailed. A rate card will be furnished on request.

Advertisements will be inserted at the rate of one cent per line per day. Address all communications and make all remittances payable to THE RECORD PRESS, GREENVILLE, KY.

THURSDAY, FEBRUARY 15, 1913.

Registered at the Greenville, Ky., postoffice as second-class matter.

FOR COUNTY COURT CLERK.

We are authorized to announce the candidacy of J. Leo Fentress for clerk of the Muhlenberg County Court, subject to the action of the Democratic party.

AUTOMOBILES have many varieties of self-starters, and now they merely seem to need self-guiders and an endowment fund.

SURGEONS have put a dog's brain into a man's skull, but lots of men have gone to the bowwows without expert guidance.

STILL if those woman suffrage marches accomplish the abolition of the French heel they will not have been in vain.

SUGAR is cheaper than it has been any other time in ten years. Is it possible that the old fashioned law of supply and demand is operating in sugar?

ANYWAY, those New York police men deserve commendation for their industry. After being paid vast sums for protection they went right along walking beat.

SPRING lamb in Washington is quoted at \$1 a pound. At that price we presume even Mary will pass it up and have a little goat stew, goats in Washington being unusually plentiful this year.

THAT Massachusetts bill requiring that any plaintiff in a breach of promise suit must show a proposal of marriage in writing is unnecessary. There are already a sufficient number of ways by which men can go on record with their follies without compelling them to put this one in black and white.

THE first wireless message sent direct from the United States to Germany was sent on January 17th, from Sayville, Long Island, and received at the Nauen tower near Berlin, Germany. The distance is about 3,600 miles. Heretofore it has been necessary to relay wireless messages to Berlin and other points on the European continent.

A BROOKLYN man has invented a voice-operated typewriting machine. It is a complex arrangement, employing electricity, reeds, sensitive plates, as used in talking machines, the telephone, etc., and likely to give more trouble than one has with the human stenographer. Besides, the dictator will not be able to dodge the responsibility for misspelled words, bad grammar, improper punctuation and the like. It is hardly probable the new invention will do away with the human typist.

SINCE the discovery of Mount McKinley in Alaska, North America has ranked third among the continents in the matter of height of mountains. Asia has Mount Everest, of the Himalayas, 29,002 feet above sea level, and South America has Mount Aconcagua, of the Andean system, 23,880 feet in height. North America comes next with Mount McKinley, 20,300 feet and Mount Elbert, with Kibbo Peak, 19,325 feet in height. Mount Blanc, Europe's highest mountain, is 15,782 feet in height which is more than a thousand feet than any mountain in the United States, exclusive of Alaska.

A MARYLAND orchardist has found that the balmy spring-like weather prevalent this winter in some sections of Maryland promises to cause a premature blossoming and budding of his apple trees, and is said

to have purchased a hundred tons of ice and cracked or broken the same into small pieces which he has packed about the roots of the trees to produce in this manner a temperature which will retard the blossoming of the trees. It is a common expedient to heat or harden to prevent injury by frost, but this is believed to be the first instance where artificial cooling has been resorted to. The orchardist declares that if the warm weather continues, the apple and peach crop in his section will be considerably reduced if not entirely destroyed unless some means are resorted to to prevent the premature blossoming.

THE New York Evening Journal recently had an editorial headed "Classing Books with Whiskey."

You observed the other day that a live opossum was sent through the mail, in the new parcel post. All sorts of queer things have gone through the mail. But queerer than all the things that the mail has carried; much queerer than the opossum, which pretends to be dead when it isn't, which carries its little ones on its back with their tiny tails wrapped around its big tail; much queerer than anything we have heard of in some time, is the Government regulation which forbids sending books via the parcel post. You mustn't send a bottle of whiskey, a cap of dynamite or a book through Uncle Sam's express system. Is that not interesting and amusing? Isn't it typical of modern conditions and intelligence to find books, which certainly ought to be considered desirable in a republic, classed with whiskey, poisons, ill smelling products and high explosives, and not allowed to go through the parcel post. In order to make sure that books and knowledge will not be distributed carelessly and freely in this Republic, books are actually excepted from the parcel post system.

THE Webb bill, prohibiting the shipment of whisky, beer, wine, etc. from wet into dry territory, has passed both the House and Senate, and awaits the signature of the President, when it will become law, taking effect July 1, 1913. It is reported that the President will veto the bill, but it will likely receive the required two-third majority and pass over his veto, as there was an overwhelming majority cast for it.

Nervous Girls.

Most persons who live in large cities work too hard and play too hard. The result an exhausted nervous system, is pitiful enough in the middle-aged, but it is tragic in the young. Nature never intended a young girl to know that she has any nerves. And yet we are constantly hearing that some young girl has "broken down." Overstudy gets the blame much oftener than too much amusement, but in most cases there are several causes at work: necessary school work, unnecessary and silly dissipation, and an inherited nervous system that is feeble.

A mother who has herself become a nervous bankrupt can't bequeath strong nerves to her daughters. She must learn that only the wisest management will bring them to healthy womanhood at all.

The strain of getting a modern education is all that most young girls can stand. School duties ought to occupy almost all the time that is left from absolutely necessary rest, sleep, and relaxation in the open air. If the girl adds parties and dances, with their late hours and late suppers, she depletes her reserve force rapidly, and some degree of nervous breakdown is sure to follow. She is fortunate whose mother is old-fashioned enough to think it wrong for schoolgirls to take part in that sort of dissipation.

Economic conditions oblige many young girls to earn their living, and they too must learn that the candle cannot be burned at both ends. The very young and very strong may be able to stand all day behind a counter and then spend half the night in dancing, but the women who rise to be heads of departments are not found among the dancers.

No girl need be in doubt whether she is overtaxing her strength. Nature's danger-signals are plain, and if we heed her on in spite of them, she takes her revenge sooner or later. If you are a schoolgirl, postpone your playtime for a year or two. You will enjoy it the more when it comes, and you will be the prettier and fresher for your self-control. Tired nerves are one of the most unbecoming things in the world.

Billiard Hall Opened.

The Billiard hall operated by Brizendine Bros. was opened last Saturday. The room has been newly decorated and is very attractive, and the five new tables and fittings are handsome.

Mrs. G. E. Countzler, who has been with her mother in Hopkinsville for some weeks, returned to her home here Sunday.

Mr. David Fleming is suffering from pneumonia, which developed the latter part of last week. He was at home all week.

Hon. R. V. Thomas, Jr., has been home from Washington for a few days on business, and was here Tuesday for a short while.

Mr. John H. Fleming has purchased the Scott Morgan residence on Main cross street, and will occupy it soon.

Lecture Tonight.

Dr. G. W. Belk will deliver his lecture "The Gospel of Good Cheer," at the court house this evening at 8 o'clock, the proceeds to be given to the fund for the proposed new Sunday-school room of the Presbyterian church. Dr. Belk is a fluent, forceful speaker, and there should be a large audience to hear him.

There were special Lincoln exercises in the high school yesterday, all the rooms joining in the recognition of Kentucky's most noted son.

Mr. Wood Sumner is recovering from an attack of grip, and is able to sit up now.

Mrs. C. W. Cisney, of Rosewood, has moved to the city, and is occupying a part of Mr. H. C. Lewis' home.

It is estimated that there are 1,000,000 automobiles in use in the United States, which is one for every 100 persons, and much above the average in any country.

Take your beef hides to J. E. Coombs & Co. and get the cash.

RALEIGH. N. C. CHILD

Made Strong and Well by Vinol.

When we tell you that Vinol is the best remedy in our whole stock for making weak, puny, ailing children strong, robust and now, we are only telling you what has been proved by hundreds of mothers.

Mrs. W. O. Strother, Raleigh, N. C., says: "My little girl, Hazel, has been taking Vinol to build her up after a severe spell of sickness. It has done so much good by restoring her appetite and building up her strength that I think Vinol is the finest tonic ever prepared, and I am telling everyone about it."

What Vinol did for this little girl it will do for very weak and ailing child, because sickly children need the strengthening cod liver elements and the tonic iron that Vinol contains—that is why Vinol builds them up quickly and gives them a fine, healthy color. It is pleasant to take, and we guarantee that the results will satisfy you—money back if they do not.

The Five-Drop ointment is now put up in 25 and 50 cent packages and sold by nearly all druggists. It is a sure cure for all skin diseases and is sold by druggists everywhere.

What Can Be Done With 2 Bunches Of Celery.

Take out the choicest inside pieces and serve them with dinner.

Cut the rest into small pieces, even up to the leaves, and with a very small amount of salted water. Cook for three or four hours in the fireless cooker. A day or so later cream the celery for a vegetable, saving every bit of the water it was cooked in.

Them a few days later when the family has forgotten the creamed celery, make a delicious celery soup of the celery water, using butter and flour first then adding celery water, and cream or milk.

June 5, 1915. W. G. CRAWFORD, Agt.

Local Mention.

Good morning! Ready to observe St. Valentine day?

Mr. Guy Dennis Martin was in Madisonville on business this week.

Mr. John Faughender, of Drakesboro, was here Monday on business.

The thaws and freezes have not been doing wheat any good lately.

There will be several Valentine parties this week.

Mr. Paul Wickliffe spent several days in Louisville this week.

Watches and jewelry repaired at Countzler's Drug Store.

Miss Myrtle Anderson, of Central City, is visiting Miss Ina Paxton.

Mr. John X. Taylor was at home Sunday.

Mr. Felix Martin was up from Martwick Sunday.

Hear Dr. Belk's lecture at the court house tonight.

Horse and mule buyer will be here Saturday.

If we are to have any winter, it will have to hurry along.

Mr. J. W. Lam was in Memphis this week on business matters.

Mr. Chas. W. Roark is at French Lick Springs, where he will spend two weeks.

Mr. Wm. Martin was in Louisville a few days this week on business.

A child of Ed Tett, colored, died last Friday and was buried in west end cemetery.

Movers have been plentiful this week, many wagons with household goods passing through town.

Victors and Records at Roark's.

Mr. J. L. Forgy, of Belton, was here the first of the week on business.

Mr. Carlisle Kirkpatrick was in Owensboro on business the latter part of the week.

Mr. and Mrs. Edgar Jamison have a fine 12 pound boy, born last Thursday.

Miss Elsie Hart left Monday for Drakesboro, where she will make her home.

Yesterday was Lincoln's birthday, and a legal holiday, but there was no general observance of it here.

Mr. Marvin Wells was over from Henderson Sunday, spending a day or two at home.

Mr. John Brizendine was in Owensboro last Sunday on business matters.

Judge Wm. H. Vost was here from Madisonville on business this week.

There was no school Friday, on account of boiler trouble, no heat being available.

39 cents an ounce for Powers & Weightman Quinine sale at Countzler's Drug Store goes off Saturday.

Bring your horses and mules in Saturday, if you want to sell at top prices.

Miss Vera Morgan and Mr. Ray Morgan are in Princeton with relatives.

Mr. John Riley, of St. Louis, was making a commercial call on his many friends here the first of the week.

Mr. W. V. Grant, of Shelbyville, representing the Springfield Metallic Casket Co., was here last Saturday calling on the trade.

Tobacco has been rolling in lively again this week, and merchants are beginning to feel the effects of the distribution of funds.

Mrs. Prather Osborn, of Louisville, who has been visiting relatives here returned home the first of the week.

The moving picture show at the LaMeade opera house will be operated only three nights each week now, the latter half.

When you get "Quail" meal you get the best that is to be had.

Tobacco Barn Burns.

The tobacco barn belonging to Edward Hodge at Nebo was destroyed by fire last Thursday morning, about 4 o'clock. The barn was being cleaned up, made ready to receive tobacco, a large quantity of which had been bought. The loss was about \$15,000, and was protected by insurance. The cause of the fire is unknown.

Mrs. Lee Hankins and son, of Madisonville, who has been here with relatives, returned home Monday.

Law Firm Dissolved.

The law firm of Belcher & Sparks has by mutual consent been dissolved, and each member will practice individually. Mr. T. N. Belcher will retain the present quarters occupied by the firm, while Judge T. J. Sparks will occupy the offices being overhauled in the Muhlenberg County Savings Bank building. Both gentlemen are prominent in legal affairs.

Mr. W. A. Wickliffe is in New York and other Eastern points, on business, and will be gone some days.

Mrs. Frank Baines and son have returned to their home in Griffin, Ga., after a visit of some weeks here with Mr. and Mrs. Eugene Lovell.

Wallpaper One Cent a Roll.

Never before, but as long as they last the accumulation of wallpaper in Roark's stock will be sold at a cent a roll. General clearance of all patterns at greatly reduced prices, to make ready for the new spring goods, now arriving.

Tomorrow is St. Valentine's day, and the observance here will be general, though varied. It is likely that the comic offerings will far outnumber the sentimental.

Mrs. Geo. Bohannon has returned to her home in Louisville, after a visit of some weeks here with the family of Dr. J. G. Bohannon and other relatives.

To The Public.

We desire to announce to the public that our new mill is now in full operation, and we will at all times have on hand the very finest quality of flour, meal and feed. We are very anxious to do custom grinding for our friends, and can give them the very best flour and wheat that is to be had anywhere, in exchange for their corn and wheat.

HOME MILLING CO. (Inc)

Messrs. Chas W. Roark, J. B. Hudspeth, Wm. Brizendine, A. E. McCracken, Leslie Shutt and Orion L. Roark were in Louisville yesterday to the Harry Lauder entertainment.

There has been some activity in police court lately, dealing with minor offenses, some of them drawing jail sentences, and such prisoners are now being worked on the streets, at the express direction of Police Judge Meredith.

To The Public.

There will be an election held at the store of T. C. Baird, on Friday, February 14, for the selection of a board of trustees for Evergreen cemetery. All lot owners who have paid for their lots are entitled to vote and hold office.

JOHN COOMBS,
Pres. of Board.

The ladies' aid society of the Christian Church, at Powderly, solicit orders for carpet weaving, plain and fancy sewing, baking, etc., which will be done reasonably, the funds being thus collected to be used in church extension work.

Mrs. U. G. Foote Dead.

Rev. U. G. Foote, pastor of the Methodist Temple, in Louisville, has the sympathy of his many friends here in the loss of his wife, who died of pneumonia at 3:30 o'clock Sunday morning. For two years she had been a sufferer from nephritis, and when she contracted pneumonia two weeks ago there was little hope for her recovery. Five children survive. The body was carried to her old home at Corydon, Ind., and interment made there. Rev. Foote is well known here, where for some years he lived and attended college.

Baby-buggies at Roarks.

Y. M. C. A. NOTES.

The new addition to the Y. M. C. A. building has been completed and the members are enjoying it very much. The Gymnasium is one of the best in Western Kentucky. On last Saturday night about 150 persons witnessed the first basketball game on the new floor. The local boys were very proud to be able to win their first game by a score of 34 to 22, the Owensboro team being the victim. On next Friday Feb. 14, at 8 o'clock the Madisonville boys will play the local boys here. Do not miss this game as it promises to be a very exciting one. Hartford plays here the 21st, Central City Athletics the 28th, and Henderson the 7th of March.

The new Billiard Room is also a very attractive department and is being well patronized. There are three standard 4 1/2 by 9 foot tables in this room with all up to date first class equipment.

The moving picture department is to be opened some time in the near future.

The Junior A & B C League is having a very interesting contest on every Monday and Thursday afternoons in the gym. at 4 P. M. The league is organized to compete for the most points in basketball, gym, events and bible class attendance. The standing is as follows:

Ravens, 92 points.

Tom Cats, 71 points.

Giants, 59 1-2 points.

Bear Cats, 49 points.

The public is invited to come in and look through our building and its work.

There is now a large demand for horses and mules, both locally and from shippers, who are now supplying the southern markets. Prices are high, and offerings are light.

In the first three months of the building season of 1913 the Ford factory turned out 24,000 cars and during the week of Dec. 16 to 21 it broke a production record by actually manufacturing 3,358 cars—a larger number than was shipped in the entire month of December, 1911, when 3,023 Fords were put through. The Ford factory will build 200,000 cars for 1913, new factories now being erected that will practically double the present output.

The Y. M. C. A. Boys entertained the Owensboro basketball team here Saturday night, the score being 32-22 in favor of our boys, which was some entertaining.

Farmers are beginning to get active; machinery is being overhauled, seeds bought, and everything being put in shape for rush operations soon.

King Road Drag Improves Roads.

Where the King road drag has been used the highways are in fine condition, smooth and free of mud holes. The use of this drag should be general over the county, and will be, in time, as land owners are offering to do the work free, and everyone can well afford to do so, as the work is light, while benefits are great.

The pooled tobacco in Hopkins county has not yet been sold. The price has been set at 8 cents, and it is declared that nothing less will be considered.

It is quite likely that Greenville will have more representatives at President Wilson's inauguration than we have ever had on similar occasions, though we have always had some persons at the important event.

Visit of Mine Car Delayed.

The U. S. Mine Car, to have been here on the 15th inst., will be delayed, Mr. C. W. Taylor having a telegram from Mr. Mason, in charge of the car, that he was called to a mine fire at Fort Branch, Ind., but would be here as soon as possible. There is considerable interest in the visit of this car here, as this is the center of a great field.

50 Mules and Horses Wanted.

F. Y. Patterson, of Bowling Green, will be here Saturday, and wants to buy Mules from 12 to 16 hands high, 4 to 12 years old, and Horses 4 to 12 years old. Will pay top prices.

Nearly every county in this section is suffering from a smallpox epidemic, dozens of cases being reported from some towns. So far Muhlenberg has escaped.

"Pittsburgh Perfect" Fence

With the Latest Improvements, This Is the Highest Quality Wire Fencing Made, Bar None

Based on long-time experience, decided improvements have been made in "Pittsburgh Perfect." AS MADE TODAY, it is so far superior to any other as to place it in a class by itself.

These improvements concern the quality of wire, construction and material—three vital points that must be right to make the best fence.

These facts positively insure your investment in "Pittsburgh Perfect."

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHECKER, POULTRY and RABBIT YARD and GARDEN

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

YEAR BOOK of Stark Bro's Nurseries & Orchards Co. MAILED TO YOU FREE

Just say on a Postal Card: "Send me a copy of Stark Year Book for 1913."

When writing, also tell us how many trees, shrubs, vines, etc., you will probably plant this season.

This Year Book is more than a mere catalogue of Stark nursery products, it is a practical easy to understand text book for the guidance of the man who plants trees.

Our own experience of nearly 100 years, the reports of experiment stations and the opinions of planters from all sections are condensed and reproduced for the benefit of every people. An encyclopedia of orchard information, containing full size color illustrations of gloriously tinted fruits and many photographic reproductions in black and white; also information on many subjects in which the orchardist is interested.

Hundreds of varieties of apples, pears, peach, plum, cherry, apricot, quince, grape and all small fruits are described; weaknesses of each variety are pointed out and good points are explained. We feel that planters should know both.

Those interested in growing fruits or flowers or shrubs or shade trees will find this book of inestimable value; totally different from the average nurseryman's publications. It is a book you will keep for reference, and one on which you can depend as being absolutely accurate. Write today for your copy.

Temperance

(Conducted by the National Women's Christian Temperance Union.)

DRINKER IS ALWAYS THIRSTY

Affinity of Alcohol for Moisture is Like Feverish and Consuming Passion and Parboiled Stomach.

It is the changeless law of alcohol, when brought in contact with vital tissues, that, though by the liquid quality of the beverages in which it is mixed it seems to appease, it really creates thirst. It does this by absorbing the fluids of the body, notably of the brain, because in the brain, as has been shown, there is much fluid to absorb. Hence the more brain a man has, the less liquor he can stand up under, and the less brain the more impervious he is to the activity of alcohol, which helps to explain why the epoch of our revolutionary ancestors may have been less darkened by drunkenness than our own. The alcohol in drinks acts in exact proportion to the quantity imbibed upon the albuminous matter of the brain precisely as fire acts upon water, lapping it up with a fierce and insatiable thirst, which still, like the horse-leech's daughter, keeps crying "Give," until its hot lips have sucked out the last particle with which they come in contact. For it cannot be too strongly stated that the affinity of alcohol for moisture is like a feverish and consuming passion, and the blistered nose, burnt brain, and parboiled stomach of the man who makes a business of drinking are nature's perpetual object lessons to illustrate that alcohol is the redoubtable enemy of an organism made up, as the human body is, of seven in every eight parts water.—Frances E. Willard.

OPEN WAR AGAINST SALOONS

Question Arises as to Why Should Not Men and Religion Attack Prime Cause of Social Evil.

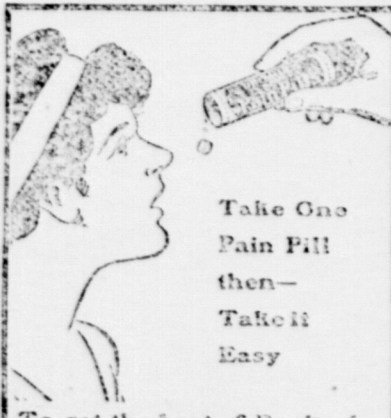

"The saloon has everywhere been found to be a prime cause of all kinds of social evils." This is the statement of a leader in the social service section of the Men and Religion Forward Movement. "We have invariably urged," the report continues, "the indirect attack upon it (the saloon) by such substitutes as school centers, comfort stations, and recreation centers." The question naturally arises, why not a direct attack? Not that other things should be left undone—these "substitutes" are most helpful—but that the liquor traffic be fought in the open, and without circumlocution. Why should not men and religion move straight forward against the prime cause of all social evil?

Alcohol as a Cause of Cancer.
It is suggested in a report from Bavaria, lately published by the British foreign office as a white paper, from Mr. Buchanan, the British consul, that there is a close connection between alcohol and cancer, for a high medical authority in Bavaria declares that most of his patients suffering from cancer are connected with the public-house trade, and freely consume alcohol in some form or other. The consul points to the fact that endeavors made in high as well as even in Social Democratic quarters—both in Berlin and in Munich—to propagate the principles of temperance, together with the higher cost of living, are not without results, as is shown by the steady decrease in the consumption of beer. As further confirmation of what is already an accepted fact—the connection between alcohol and cancer—the consul's report is interesting.

Alcohol Everywhere an Evil.
Under this title Sir Thomas Whitaker, a noted English expert on the alcohol question, contributes to a popular magazine a most interesting article, which is a valuable contribution to temperance literature. Sir Thomas Whitaker sums up in these words: "The system must be judged as a whole. Evil is inseparable from the common sale and general use of intoxicants—not in every individual case, but in every community. There is no nation in the world today—and there never has been one—of which this is not true. It is in the very nature of alcohol that it should and must be so."

Industrial World and Drink.
Employers do not hire men who drink. They cannot afford to do so. The man who drinks is discriminated against throughout the business world. With 80 per cent. of the railroads, 79 per cent. of the manufacturers, 88 per cent. of the merchants and 72 per cent. of the farmers refusing to employ men who drink, there is no more excuse for the saloons in the world of economics than in the world of morals.

Where Rest Is.
There is no rest to be found in any escape from the will of God. We may elude a plain duty; we may recoil from that which we know we ought to do, and yet which seems too hard for us, and refuse to undertake the task. But there is no rest in this course. God's will, if it requires work for us, is providing a rest in and through that work sufficient for our needs, for his will is not in conflict with his love. If we feel the need of rest, let us not be too sure that we shall find it in freedom from work.

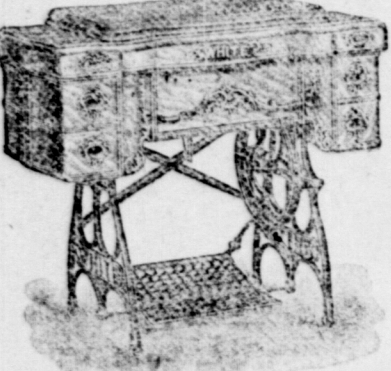

To get the best of Backache Get a Box of **Dr. Miles' Anti-Pain Pills** Otherwise Backache May get the best of you. Nothing disturbs the human system more than pain whether it be in the form of headache, backache, neuralgia, stomachache or the pains peculiar to women. Dr. Miles' Anti-Pain Pills are a standard remedy for pain, and are praised by a great army of men and women who have used them for years. "A friend was down with La Grippe and nearly crazed with awful backache. I gave her one Anti-Pain Pill and left another for her to take. They helped her right away, and she said she will never be without them again." Mrs. G. H. Wain, Austintown, O. At all druggists—each dozen \$2.00. MILES MEDICAL CO., Elkhart, Ind.

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of indigestion, heartburn, and indigestion as real diseases, yet they are symptoms only of a certain specific nerve disorder—indigestion. It was this fact that first caused me to shop for the cure of that now very popular stomach remedy—Dr. Shoop's Restorative. Going direct to the source of the trouble, I found it was a favor to Dr. Shoop and his Restorative. With that original and highly vital principle, no such lasting relief could be secured to be had. For stomach distress, indigestion, heartburn, flatulence, and all other troubles, try Dr. Shoop's Restorative. Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

Dr. Shoop's Restorative

White Sewing Machines, in rotary and vibrator; needles, shuttles, etc. in stock for all machines. ROARK'S STORE.

Miss Lena Arnold asks the patronage of the public, and guarantees that satisfactory work will be done in her clothes cleaning, pressing and repairing shop.

Very Serious

It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason, we urge you in buying to be careful to get the genuine—**THE FORD'S BLACK-DRAUGHT Liver Medicine**. The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not irritate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined. BOTTLED IN TOWN \$2.

Pretty, pleasurable, permanent presents in furniture, and the showings at Roark's will interest you.

Why Not Read The Courier-Journal?

HENRY WATTERSON Editor.
